Soluciones basadas en la naturaleza**

*Temas integrales para el Congreso Mondial de AP*

# IUCN WORLD PARKS CONGRESS SYDNEY 2014

## Resumen:

**6000+ participantes**

**5363 delegados registrados**

**160 nacionalidades**

**300 sesiones / talleres**

**200 reuniones (inc. alto-nivel)**

**6 pabellones**

**Exposición**

**600 e-carteleras**

**7 Diálogos (líderes mundiales )**

# *La Promesa de Sydney*

# *Mensaje clave....*

- El reequilibrio de la relación entre la sociedad humana y la naturaleza es esencial, y que los ecosistemas y su variedad de vida apoyamos plenamente nuestra existencia, identidad cultural y espiritual, las economías y el bienestar

Reconocemos el papel de los Pueblos Indígenas ", la comunidad y las zonas y territorios privada conservados en alcanzar la conservación de la biodiversidad y los objetivos societales.

Reconocimos las oportunidades que presenta las nueva tecnologías para entender mejor y entablar nuevas circunscripciones, incluidos los jóvenes en las ciudades de rápido crecimiento en el mundo.

**Nos comprometemos a dinamizar** ... nuestros esfuerzos para asegurar que las áreas protegidas no regresan, sino progresan. Vamos a ampliar la protección en todos los sitios esenciales para la conservación de la naturaleza, especialmente en los océanos, y hacer participar a todos los que conservar.

**Nos comprometemos a dar inspiración** ... a todas las personas, a través de generaciones, la geografía y las culturas, y especialmente a las ciudades, para experimentar la maravilla de la naturaleza a través de las áreas protegidas.

**Prometemos invertir** ... en soluciones basadas en la naturaleza, con el apoyo de las políticas públicas, con incentivos, herramientas y garantías que ayudan a detener la pérdida de biodiversidad, mitigar y responder al cambio climático, reducir el riesgo y el impacto de los desastres, mejorar la seguridad alimentaria y del agua, y promover humana la salud y la dignidad

# *Enfoques Innovadores y los 8 temas del Congreso*

Stream 1 - Reaching Conservation Goals

Stream 2 - Responding to Climate Change

Stream 3 - Improving Health and Well-Being

Stream 4 - Supporting Human Life

Stream 5 - Reconciling Development Challenges

Stream 6 - Enhancing Diversity & Quality of Governance

Stream 7 - Respecting Indigenous & Traditional Knowledge and Culture

Stream 8 - Inspiring a New Generation

# *Temas transversales*

Capacity Development

Marine

World Heritage

New Social Compact

Un total de 150 recomendaciones emergen a través de las 12 temáticas del Congreso:

Estos pueden ser desagregados por relevancia regional y temática, sino también consolidados para alcanzar las prioridades de alto impacto y nuevos enfoques combinados

# *Los compromisos ....*

## The Promise of Sydney: Our Commitment to action for the Promise of Sydney

Below is the current list of commitments recorded during and after the IUCN World Parks Congress 2014. Please note that this list is continually evolving as commitments are made, expanded and added to the record.

The IUCN President invited further promises and commitments to be made. These can be notified to: [promiseofsydney@iucn.org](mailto:promiseofsydney@iucn.org), and will be added to the online register of promises. Please also notify us if the commitment as stated below is not recorded correctly.

Commitments made by: [Governments](#) | [Organizations](#)

### Commitments made by Governments to the Promise of Sydney

#### Australia: Education and research

#### Australia committed to:

1. A further AUD \$100K to support the partnership between local universities and private land-managers in the Tasmanian Land Conservancy. This money will support curriculum development to build capacity in protected area management in Australia, and across our region through agreements with our universities in the Asia-Pacific region.
2. A further AUD \$1.2 million for the Bush Blitz species discovery program, a public-private partnership between the Australian Government, the mining company BHP Billiton and Earthwatch Australia. This program has already uncovered more than 825 new species.

## Generación y la captación de conocimiento

- Lograr un consenso sobre qué, por qué, dónde proteger
- Evidencia del valor de las áreas protegidas para la sociedad
- Recopilar y compartir soluciones
- Crear herramientas, orientación, análisis, normas para ayudar a la toma de decisiones, planificación, ejecución

## Influir en los marcos de política y de gobernanza / aplicación

- Evidencia y mensajería estratégica para demostrar el impacto de áreas protegidas
- Avanzar nuevos instrumentos internacionales para poner en vigor estos convenios como el 'Law of the Sea' del ONU
- Mecanismos de financiación que permitan una nueva inversión en áreas protegidas
- Atraer y monitorear los compromisos

## Entrega de resultados y soluciones escalables

- Entregar nuevos enfoques escalables y replicables, para la práctica de la conservación
- Incluir nuevos grupos y perspectivas
- Utilizar las nuevas tecnologías para planificar, ejecutar, supervisar y evaluar el éxito de áreas protegidas
- Amplificar soluciones a nivel nacional, regional, los niveles globales, por ejemplo, a través del ‘Panorama’  
[www.panorama.solutions](http://www.panorama.solutions)
- Avanzar estándares globales para la gobernanza y participativa

## **Mejorar la capacidad para lograr resultados**

- **Avanzar nuevas alianzas y compromisos para desarrollar capacidades en áreas protegidas**
- **Promover y apoyar la diversidad de enfoques adecuados de aprendizaje**
- **Avanzar en los enfoques de aprendizaje intersectoriales**
- **Avance la Lista Verde de Áreas Protegidas de UICN y otras normas para garantizar la gobernabilidad y la gestión eficaz y equitativa**

## A strategy of innovative approaches and recommendations to enhance the diversity, quality and vitality of governance in the next decade

### A promising future

The beauty and diversity of nature are only rivalled by the richness and variety of ways by which people collaborate to care for it, as inseparable from their own wellbeing. Yet, we appear to fall very short of our collective responsibility towards nature and our shared humanity. There is an **immense unrealised potential to strengthen conservation, support sustainable livelihoods and meet human rights**. We can begin to respond by **improving our ways of taking decisions for the conservation of nature and its associated cultural diversity and values**. In attempts to understand and improve such processes, the concept of “governance” of protected and conserved areas has emerged, as well as some of its dimensions and characteristics (see: [www.iucn.org/pa\\_governance](http://www.iucn.org/pa_governance)).

## Learning from success in protected areas

Protected areas are the cornerstone for conserving nature and related ecosystem services on which humans depend. The **Panorama** assembles positive examples of approaches in, and for, protected areas, to support learning from proven success – helping avoid reinventing the wheel, and bringing existing guidance frameworks to life with real-world examples.

#### Little Sydney: Protecting Nature in Europe

More than 300 participants from all over Europe will gather for the "Little Sydney: Protecting Nature in Europe" conference, taking place in Hainburg/Donau-Auen National Park, Austria from 28-31 May 2015.

IUCN and the IUCN World Commission on Protected Areas (WCPA), in conjunction with the Austrian Federal Ministry of Agriculture, Forestry, Environment and Water Management, and the Donau-Auen National Park, are organizing the conference entitled "Little Sydney: Protecting Nature in Europe".

"Little Sydney" builds on the outcomes of the recent major global event on protected areas: the IUCN World Parks Congress 2014 (WPC), held in Sydney in November 2014, and which resulted in the [Promise of Sydney](#).

Participants from all over Europe will gather and explore further the outcomes of the WPC Streams and Cross-Cutting Themes of particular relevance for Europe. Key WPC findings will be presented and discussed during plenary, and workshop sessions will be organised around four main themes: Reaching Conservation Goals, Supporting Human Life, Influencing Policy and Institutional Responses, and Partnerships, Governance, Capacity Development and Mobilisation of Resources. Both the plenary and workshop sessions will be designed to maximize the quality of outputs with a view to developing a road map for protected areas in Europe.

#### Objectives

The objectives of the "Little Sydney: Protecting Nature in Europe" conference are to discuss, share and showcase original approaches for conservation and development arising from the IUCN World Parks Congress 2014; and to facilitate the implementation of the Promise of Sydney in the European context. The Little Sydney conference aims to:

"LITTLE SYDNEY"  
PROTECTING NATURE  
IN EUROPE
